## DEFENDER DF1200 TWIN WITH TELESCOPIC TRIPOD 240V

The twin DF1200 gives you the option of shining light in different directions, maximising the light spread with fewer lights.

**400**  
POINTS

Part No.: E204060

## DEFENDER DF1200 SINGLE WITH TELESCOPIC TRIPOD 240V

The single DF1200 head on an adjustable telescopic tripod is a big light that compacts down to a small size, making it very easy to transport from van to site.

**200**  
POINTS

Part No.: E204040

## VAN VAULT 2 SECURE STORAGE BOX

The original high security steel storage box for commercial vehicles.

Part No.: S10810

## VAN VAULT STACKER XL SECURE STORAGE DRAWER

Secure drawer solution for protecting hand and power tools in commercial vehicles.

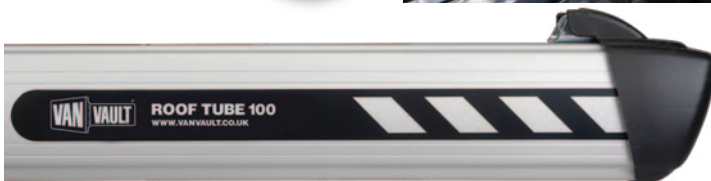

Part No.: S10890

## VAN VAULT ROOF TUBE 100

The Van Vault Roof Tube 100 is designed for secure transportation and storage of copper, waste and other pipes. Holds up to 100m of copper in 34 x 3m lengths.

Part No.: S10520

## PUROTAP LEADER AND NEXION CARTRIDGE PACK

The Swiss engineered PUROTAP® Leader uses premium quality, pH-regulating Nexion resin to provide demineralised fill water for closed loop systems. The Leader filters the aggressive minerals and salts that contribute to corrosion, helping to provide hassle-free compliance with manufacturer warranty conditions and with Europe's most stringent water treatment standards:

- VDI 2035
- Highly portable
- Easily replaceable cartridges
- Information dashboard
- Warning & control mechanisms

Part No.: 200001

**ELYSATOR**

## SORBOX Li, FOR ONGOING CHEMICAL-FREE SYSTEM PROTECTION

SorbOx reliably and continuously removes lime and salts, rust and gases, constantly maintaining optimum quality of heating water and helping reduce output losses and increase equipment longevity for a variety of hydronic heating systems.

SorbOx is extremely low maintenance and economical to operate, permitting easy compliance with manufacturer warranty conditions and with Europe's most stringent water treatment standard, VDI 2035.

To create an environment where corrosion simply cannot take place VDI 2035 stipulates:

1. PH levels between 8.5 and 9.5
2. Conductivity not more than 100 uS/cm
3. Dissolved Oxygen below 0.1 mg/l

Part No.: 100971

## VIESSMANN ALLENDORF FACTORY VISIT

### Viessmann factory tour

The Viessmann Group sets the technological pace for the heating industry. That is what 'Viessmann' stands for, and our employees ensure that we live up to this reputation each and every day. Every year sees 25,000 visitors to the company head office site in Allendorf (Eder) or other Viessmann Group sites.

Get a fascinating insight into a leading international manufacturer of heating systems.

You will be notified of the visit dates on application. The dates will be part of a planned Viessmann tour with a Viessmann Area Business Manager in attendance.

**2200**  
POINTS

### Visit includes:

Return flights to/from Frankfurt airport from your closest airport.  
Return taxis to/ from Frankfurt airport to Viessmann Allendorf.  
Overnight accommodation and subsistence.

**Part No.: AF2020**

### The tour includes:

The Viessmann Infocentre consists of the Academy, the Museum and the Energy Centre.

The factory visit includes a tour of the production facility where the Vitodens 100-W boilers and the Inox-Radial stainless steel heat exchanger are made and a tour of the Distribution Centre.

## DELTA SMART- PROFESSIONAL FLUE GAS ANALYSERS FOR DOMESTIC AND COMMERCIAL INSTALLATIONS

- 5 years warranty and fixed service plan
- Suitable for domestic and commercial installations
- Fitted with Long Life O<sub>2</sub> and CO cell ( 0-10000 or 0-20000 ppm)
- Flue gas, draught, tightness & let-by, ambient CO test
- 6 lines colour touch screen display
- Differential temperature and pressure
- Display inlet boiler pressure together with combustion parameters
- Works with free mobile app both IOS and Android smart device
- Can up-grade to NO<sub>x</sub> anytime

**Delta Smart "E"** flue gas analyser for domestic installations supplied with O<sub>2</sub>, CO (0-10000 ppm) cells, flue gas probe 250x8 mm with large water trap, Li-Ion rechargeable battery and USB charger/lead, Bluetooth module for communication with MRU-4U free mobile app, fast IRDA printer, tightness/let by test hose

**Part No.: 7629281**

**1400**  
POINTS

**Delta Smart "C"** flue gas analyser for commercial installations supplied with O<sub>2</sub>, CO (0-20000 ppm) cells, flue gas probe 250x8 mm with large water trap, Li-Ion rechargeable battery and USB charger/lead, Bluetooth module for communication with MRU-4U free mobile app, fast IRDA printer, tightness/let by test hose, calibration certificate and robust ABS carrying case

**Part No.: 7629282**

## VIESSMANN BRANDED FLEECE JACKET

VIESSMANN

Stay warm and comfy! The black fleece jacket is not only an ideal partner in the cold winter months but it is also an easy jacket for spring and autumn. The stand-up collar, which is additionally reinforced with functional material ensures that you are well protected in all wind and weather conditions. The drawstring waist, adjusted through an elastic band, helps you adapt this jacket to your personal needs. There is a practical extra wide hanger at the back of the jacket which ensures that you can find a place for your jacket on almost any coatrack. The zips come with a colourful string in vitorange which adds a colourful touch to the garment.

## VITODENS 111-W

### Wall mounted gas condensing storage combi boiler

- DHW flow rate up to 20 litres
- Natural Gas & LPG compatible
- Modulation ratio up to 1:6
- User friendly control via backlit LCD touchscreen
- Modulating stainless steel cylinder burner
- Straightforward access from the front, so no need to leave space at side for maintenance
- Also approved for multiple connections to stacks in multi storey buildings

#### Boiler

Vitodens 111-W 26 kW  
Vitodens 111-W 35 kW

#### Part No.:

B1LD009  
B1LD010

## VITODENS 200-W

### Wall mounted gas condensing boiler

- Modulation range down to 1:17
- Dimensions (length x width x height) 360 x 450 x 700 mm
- Weight: <35 kg
- New sensor connections on the underside of the boiler, no requirement to remove casing on low voltage connections
- Wi-Fi inside for smartphone control and easy commissioning
- ViStart commissioning App
